Overview of Multifactor Authentication (MFA) Enforcement

To strengthen account protection, reduce credential-related risk, and help meet compliance requirements, Oracle will begin enforcing multifactor authentication (MFA) for Fusion Applications environments. This guide walks supplier users through the one-time email enrollment process and the day-to-day login steps that follow.

Oracle MFA with Email Enrollment Steps

Step 1: Enter your username and password, then click Next.

A screenshot of the Oracle Cloud sign-in interface. At the top left is the "ORACLE Cloud" logo. To its right is a language dropdown menu set to "English". Below the logo is the heading "Sign in". There are two input fields: "Username" and "Password". The password field is filled with dots and has a toggle icon on the right. Below the password field is a link that says "Forgot Password?". A large "Next" button is positioned below the "Forgot Password?" link. Below the "Next" button is a horizontal line with the word "Or" in the center. Below this line is a button that says "Sign in with Redpath_SSO_Dev" and includes a small icon of a person. Below this button is a link that says "Need help signing in?". At the bottom of the form is a link that says "> Cloud account details".

Step 2: A message is displayed asking for a verification code. The code is sent to the email account set up on the supplier contact. Enter the code from the email.

ORACLE Cloud

Verify your email address by
entering the verification code
sent to

redpathmining@redpathmining.com

[Resend code](#)

[Choose another method](#)

Step 3: An “Email successfully enrolled” message appears on the screen. Click Continue.

ORACLE Cloud

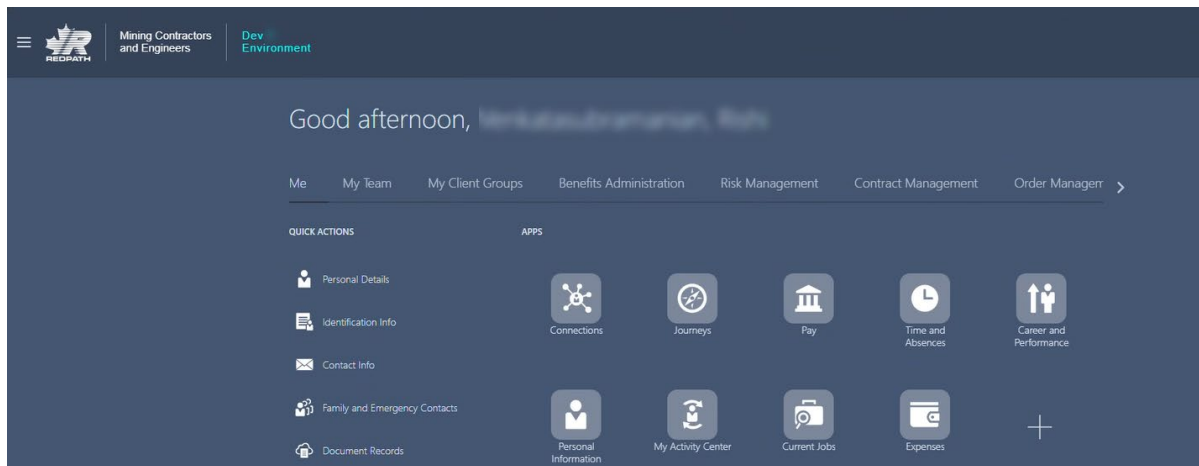

Email successfully enrolled.

Next time you sign in, enter the verification code sent to your email
to authenticate.

[Continue](#)

[Configure another factor](#)

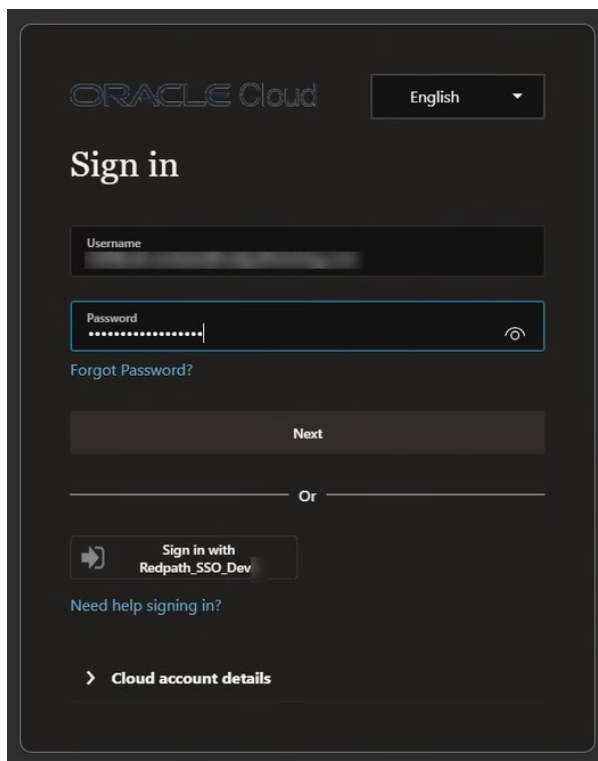

Step 4: The Oracle home screen is displayed. Enrollment is now complete.

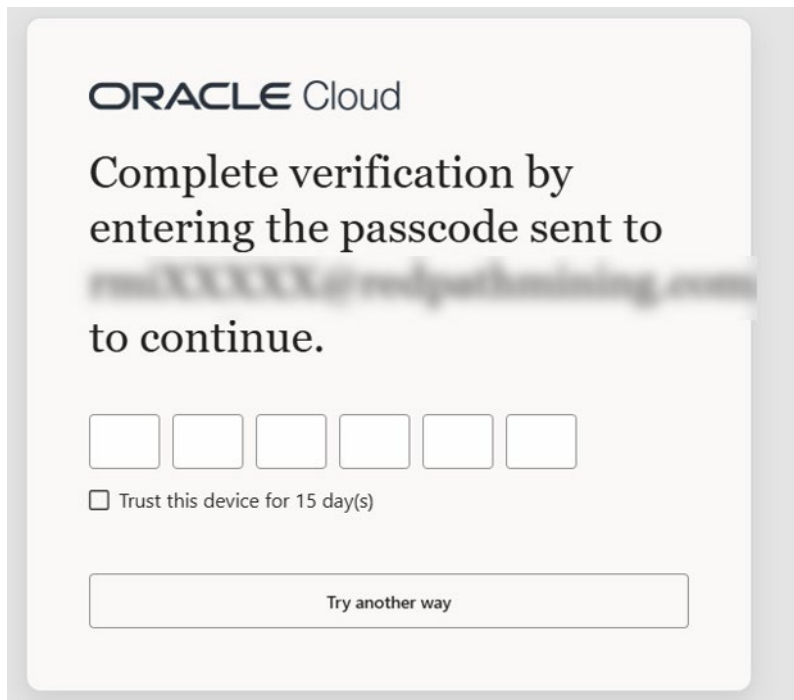

Oracle Login Steps with Email Authentication

After enrollment, use the following steps each time you sign in.

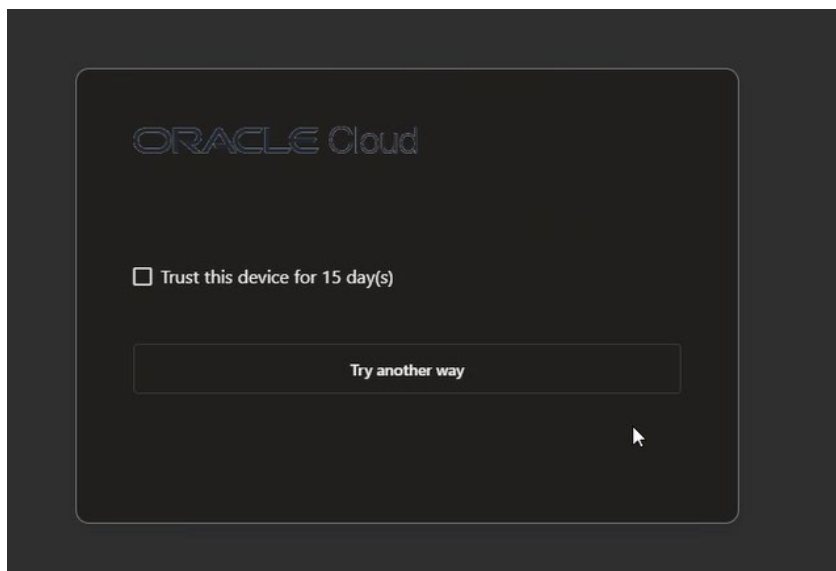

Step 1: Enter your username and password, then click Next.

Step 2: A message is displayed asking for a verification code. The code is sent to the email account set up on the supplier contact. Enter the code from the email. You may select “Trust this device for 15 day(s)” to reduce how often you are prompted.

A screenshot of the Oracle Cloud verification screen. The screen has a light gray background. At the top, it says "ORACLE Cloud" in a dark blue font. Below that, it says "Complete verification by entering the passcode sent to" followed by a blurred email address "redXXXX@redpathmining.com" and "to continue." Below the text are six empty square boxes for entering a passcode. Under the boxes is a checkbox labeled "Trust this device for 15 day(s)". At the bottom is a button labeled "Try another way".

Step 3: A brief confirmation screen is shown, and the Oracle home screen is then displayed.

A screenshot of the Oracle Cloud confirmation screen. The screen has a dark gray background. In the center, there is a white rounded rectangle containing the "ORACLE Cloud" logo at the top. Below the logo is a checkbox labeled "Trust this device for 15 day(s)". At the bottom of the white rectangle is a button labeled "Try another way". A mouse cursor is visible near the bottom right of the white rectangle.
